BROWN BROTHERS HARRIMAN

BBH Capital Partners Private Equity

The investor of choice for closely held businesses.

BBH Capital Partners Private Equity (BBHCP) provides highly customized capital solutions to lower middle market companies. Our investment flexibility allows us to act as a control or non-control investor and to structure our investments as a combination of equity and subordinated debt securities as needed.

Investment focus

- Investment size: $50 million to $150 million (substantially larger investments with co-investment)
- Enterprise value: up to $750 million
- Industry verticals: healthcare; technology, media, and telecommunications; business products and services.

Transaction types

- BBHCP is focused on providing equity capital to businesses without third party-institutional equity ownership. We have a long, referenceable history of partnering with founder, family and/or management owned companies.
- Our flexible investment mandate allows us to act as a minority or control investor. We customize each capital structure to meet the specific needs of a business and its owners, rather than leading with a one-size-fits-all approach.
- Our capital is typically deployed when a business is acquiring another business, investing in a strategic growth initiative, solving family liquidity issues, facilitating generational ownership transitions, or a combination of these events.

Deal types

BBHCP provides capital to facilitate the following deal types:

- Management or leveraged buyouts
- Growth equity
- Minority or majority recapitalizations (including dividend recaps)
- Ownership transitions and generational transfers
- Buy-and-build strategies
- Acquisitions or industry consolidations

The BBH advantage

BBHCP utilizes the extensive global network of BBH & Co. to provide its portfolio companies with a wide array of benefits, including access to new customer or vendor relationships, introductions to potential acquisition targets and assistance with implementing improved information systems.
